What Makes Roden's Glass So Heavy?

BEAUTIFUL, sparkling like a diamond, cut glass is always a joy.

But why is it so heavy?
The lead for cut glass (and for other fine glass, such as that for optical use, electric light bulbs, etc.) is first changed into lead oxide by burning it in a furnace. This oxide is known as red-lead. It is a reddish powder.

This powder, mixed with silica (fine white sand) and potash, becomes clear glass when melted in a furnace. At a lower temperature, the molten glass is blown into various shapes.

Roden's Richly Cut Glass is the Best Procurable—and Don't Forget—
IT IS SOLD BY THE JEWELLERY TRADE ONLY

STITCHES
OF
TOWN AND
DISTRICT

Local News.

Reports to hand go to show that Don. Scott has struck a gusher.

H. B. Edwards is spending a vacation at the coast cities.

Mrs. G. L. James and family are spending a few days in Edmonton.

A. C. Derosier has taken his old position in H. B. Edwards' store.

Judge J. A. and Mrs. Jackson, and daughter, Ethel, are visiting with friends in town.

Mr. and Mrs. John Beck and family, of Delburne, are visiting with relatives in town.

Mr. and Mrs. Grant, of Killam, were visitors with Mr. and Mrs. Neil McDonald.

Mrs. (Dr.) Budd is on a camping and fishing expedition to the Clearwater.

Mrs. Geo. Gordon is visiting with her daughter, Mrs. Galbraith, of Pincher Creek.

C. H. Fissel, of Spokane, has been spending a few days with his nephew, R. F. Schaefer.

E. T. Cooper has gone on a visit to his father in Seattle, who is in rather indifferent health.

Mrs. Florence Koller, of Spokane, is visiting with her mother, Mrs. J. S. McCullough.

Mrs. Ella Wing, of Washington, is visiting with relatives in this district.

W. E. Brown, of Ryley, was in town for a short time the first of the week.

Mrs. John Adams, of Edmonton, is visiting with her parents, Mr. and Mrs. J. W. Lewis.

The genial countenance of Wm. Cottle could be seen on the streets of Edmonton the other day.

Mr. and Mrs. W. Steele returned from their visit to the coast cities the other day. They had a lengthy and delightful holiday, and met many old Ponoka friends, who appeared to be well and prosperous.

Rev. N. D. McDonald, of Killam, is visiting with his parents, Mr. and Mrs. Neil MacDonald, for a time. He intends taking a two years' course at Hartford, Connecticut.

Mr. and Mrs. Stoddard, of Rathdrum, Idaho, and son, C. E. Stoddard, of Coeur d'Alene, Idaho, and daughter, Mrs. Ernest Reisinger, of Rathdrum, Idaho, motored home after spending a week's vacation at the home of Mr. and Mrs. Bert Stoddard.

The ladies of the Catholic church held a very successful lawn social at the home of Anton Bittner, north of town. The afternoon was all that could be desired, and the large crowd in attendance had an enjoyable time.

T. Hill has purchased a five-acre lot from F. E. Alger, adjoining the Edmonton trail, north of town, and is erecting a residence thereon. Mr. Hill is to be commended on his enterprise.

This country is getting like No. 10. "All wind and no water."

It just seems as if it cannot rain, and the country is suffering from the lack of moisture.

August 22-23 are the Ponoka Fair dates. Get your exhibits ready, and remember to bring the children along.

H. D. Gertz is to have a sale of all farm stock and implements in the near future. The date of sale will be announced later.

The C.G.I.T. held a very successful lawn social at the home of Mrs. A. D. Crawford on Wednesday evening of last week. Plenty of cream and cake, and a musical program, given in the girls very best style, satisfied the desires of a good attendance.

M. G. Neff left on Monday to join his family in Calgary, and will leave there in the course of a day or two for Los Angeles, California, where he has taken an appointment. Mr. and Mrs. Neff are old timers in Ponoka, and their many friends regret to see them go. That their lot may be cast amid genial surroundings, and that prosperity will be with them is the wish of all.

Woman wanted to keep house for man whose wife has left his bed and board. Must be good cook, economical, clean and prepossessing. Spinster or widow; children immaterial. Not over 45, and around 200 lbs. in weight. Any nationality, religion or color. Comfortable home to decide person. Apply in person at Herold Office.

The Fertile Valley Creamery Co., Ltd., have now opened their new offices, in the Winlock building, opposite Geo. Bowker's lumber yard, and are buying cream, poultry and eggs, and manufacturing butter. The company is formed by five well-known local men—Anton Lay, Angus McLeod, W. G. Bachor, Jack Pew and Brad Stephens, and it is to be hoped that they will secure a share of the public patronage. The more industries we have in town the better will it be for Ponoka and the neighborhood.

CARD OF THANKS

The family of the late Mr. E. R. Matters desire to thank all friends for their kind sympathy in their bereavement, also for floral tributes.

CHURCH NEWS

BAPTIST

Services and Sunday school on Sunday, July 30th, at Brooks, Manitoba and Ponoka as usual. A welcome for all.

The People's meeting on Wednesday evening at 8.

ST. MARY'S

Sunday, July 30th.—Afternoon service at 3:30 p.m.; Sunday school 10 a.m. No services will be held in this church during the month of August.

Aspen Beach, Gull Lake.—Divine service will be held in the Boy

Scout camp on Sunday, July 30th at 10:30 a.m. Visitors to the beach are cordially invited to attend this service.

HAZEL HILL SCHOOL REPORT

The following is a list of the successful students of Hazel Hill School:

Promoted from Grade VII. to Grade VIII.—Edna Ray, Lois Geo. Edling, Maudie, Stanley Smith.
Grade V. to VI.—Ralf Maudie, Pyrgie Maudie, Emory Reid (on list, mind in spelling).
Grade III. to IV.—Robert Kay, Clayton Williams.
Grade II. to III.—Chas. Kay, Ivan Reid (conditioned in spelling).
Grade I. to II.—Audrey Kay, Florence Reid.

K. L. DICK, Teacher

New York, July 24.—Forty-two ships have been chartered to transport British coal to this country to relieve the emergency by the combined coal miners and railroad shopmen's strike, it was announced by the United States shipping board. It is said these ships assure the delivery of more than 250,000 tons of coal in New York within the next six weeks.

I will accept your note for Hall Insurance.—A. B. BAARDSDAARD.

Good meals, clean comfortable rooms, and good service can be had at the Alberta Hotel, under new management.

Mrs. JAS. B. BEATTIE, Prop.

For the rest of the month, I will sell, or pure, fresh Glenparry milk right off the ice.—MURRAY SMITH

FOR SALE.—Dining-room extension table; good as new.—Apply, Herald Office.

PONOKA, ALBERTA

New Wheat Board Is Given Wide Scope By Saskatchewan Measure

Regina.—The bill to confer certain powers upon the Canadian Wheat Board was introduced in the Legislature by Premier Dundas, and given its first reading. The bill gives wide powers in the handling of wheat. It may take possession of, sell and deliver wheat stored in any elevator or elsewhere in the province and it gives the power to control the buying and selling of wheat in the province, by license or otherwise, and to exact bonds from licensees.

The board is given power to prohibit any firm, corporation or individual, except itself, its licensees to buy or handle wheat on commission or to operate any elevator or warehouse in the province, and is empowered to order any person holding wheat within the province to sell it to the board or any licensee of the board, or any purchaser named by the board "on such terms as the board may direct."

The bill outlines the board with full powers to enter into contracts and agreements "with respect to the purchase, handling, sale, storage, transportation and insurance of wheat." Other necessary powers to enable the board to handle the entire wheat crop of the province are included, and provision is being made for the Government to give still further powers to the board should they at any time be found necessary or desirable. The board will have the right to make regulations and provide penalties for their violation.

Other clauses in the bill give the board power to give guarantees to enable advances or cash payments to be made to vendors and to wheat growers in Saskatchewan the board may make payment, by way of advance or otherwise, by authorization to a chartered bank to charter.

NEED FOR A GOOD UNDERSTANDING BETWEEN VARIOUS PARTS OF EMPIRE

London.—Presiding at a luncheon of the Empire Parliamentary Association, held in the House of Commons for the purpose of meeting the visiting parliamentarians of the dominions, Right Hon. Donnan Law urged the necessity for a good understanding between the various members of the Empire, which necessity, he said, was never greater and never more difficult to obtain.

He pointed out that during the war the Empire had been united by a common atmosphere of unselfish devotion, and was now facing the inevitable reaction, and the services of the people were being called upon. He emphasized that the late war had never been won without the help of the dominions. The dominions had been a great asset, and it would be one of the tragedies of the world if, after the war, they were not more closely knit by the bonds of Empire.

If the dominions were necessary to the existence of Great Britain in war, they were necessary to her peace. If they had to wait until order and trade were restored in Central Europe,

Board Of Directors Of Canadian Nat. Ry. Give In Resignations

Toronto.—Following official announcement given out at Canadian National Railway headquarters that the directors of the system had tendered their resignations to the Government to facilitate reorganization of the directorate. It was intimated that the directors of the system had been asked to resign—though no one wanting to be quoted—that the directors of the Grand Trunk Railway would shortly follow the example and resign. The directors were in session at the Canadian National Railway headquarters. Two of them, A. P. Barnhill, St. John, N.B., and Robert Hudson, of Hamilton, Ont., were not present, but their resignations were forwarded.

The following statement was issued by D. B. Hanna, President of the Canadian National Railway, after a prolonged sitting by members of the board.

"At a meeting of the board of directors of the Canadian National Railway held today, the members of the board tendered their resignations to the Government.

"These resignations are preliminary to the appointment of the new board of directors which will succeed the separate boards of the Canadian National Railway and the Grand Trunk Railway. This will afford the Government a free hand in the selection of the new directors.

"Such selection may not be completed immediately, but in the meantime the interests of the Government railways will not suffer, as the present directors will continue to act until their resignations have been formally accepted."

The future success of the Canadian

Britain and Emigration

London.—Lord Birkenhead, speaking at an Australian luncheon, here mentioned that the chairman, Sir Joseph Cook, Minister for Immigration, had just signed a colonial office decision under which the British Government, to the extent of £3,000,000 annually, had undertaken to defray half the cost of sending approved emigrants to the dominions. Sir Joseph, interviewed on the subject, said the agreement required of any money to be paid to a bank or banks with interest at a rate not exceeding 6 per cent. per annum.

The powers conferred upon the board under the bill are to terminate on August 15, 1923, with the exception of such operations as are necessary to wind up the business in connection with the 1922 crop.

The board itself or its servants are protected against legal proceedings by a clause in the bill, so long as they are carrying out their duties as defined by the act.

The necessity for placing the farmers of the province in such a position that they will be able to continue in business and enable the country to continue its existence is justification for the introduction of the compulsory feature in the wheat marketing legislation now before the Saskatchewan Assembly.

The bill outlines the board with full powers to enter into contracts and agreements "with respect to the purchase, handling, sale, storage, transportation and insurance of wheat."

Other necessary powers to enable the board to handle the entire wheat crop of the province are included, and provision is being made for the Government to give still further powers to the board should they at any time be found necessary or desirable.

The board will have the right to make regulations and provide penalties for their violation. Other clauses in the bill give the board power to give guarantees to enable advances or cash payments to be made to vendors and to wheat growers in Saskatchewan the board may make payment, by way of advance or otherwise, by authorization to a chartered bank to charter.

Mr. Dundas referred to the compulsory feature as the cardinal principle of the bill. He declared that he was opposed to compulsion in trade as a general principle, but it was justifiable under certain conditions. The province was faced with such conditions now, when the cost of raising and marketing wheat was so high, and when the principal purchasers of the farmers' produce were themselves in financial straits and were seeking to buy at the lowest possible cost.

Look for Higher Wheat Prices

Ottawa.—A profitable market for this year's wheat crop is expected, according to expert advice received by the Department of Trade and Commerce. European stocks are reported to be low.

In a letter to the department one wheat exporting house expresses the opinion that there would be two dollar wheat this year if the ordinary law of supply and demand were not affected much by adverse financial conditions.

On this account, the prevailing price is problematical, though it is expected to be in advance of last year. Purchases in Europe, according to advice, are likely to be gradual, instead of the crop being marketed in huge consignments.

Winnipeg.—John Bracken, president of Manitoba Agricultural College, was chosen by the Farmer members of the Manitoba Legislature as their leader, and consequently the next premier of the province. Mr. Bracken has accepted the leadership.

Mr. Bracken, aged 59, a native of Ontario, graduate of the Guelph Agricultural College and for some years principal of the Manitoba Agricultural College, was the first choice, unanimously, of the Farmer members of the Legislature.

Mr. Bracken's name was mentioned prominently two or three months ago in connection with the Farmer leadership, but since the election and the gathering here of the Farmers, political speculation had not considered him seriously. His selection, therefore, was something of a surprise. He has taken no active part in public life, and has not been identified with the Farmers' cause.

It is said that Mr. Bracken will receive a summons from the Lieutenant-Governor to take the oath of office, and that he will accept the responsibility and ask for time to choose his colleagues. It is understood that the Government will not take office until the construction of his cabinet, and probably he will report back to the Legislature before he takes office, although his professional interests naturally have associated him very closely with Manitoba's agricultural development.

WORLD HAPPENINGS BRIEFLY TOLD

Ignace Jan Pederewicz will return to the piano next fall, touring the United States and Canada. It has been announced.

Fire completely destroyed the ball way car factory of the Oremstein and Koppel works at Spandau, Germany. Damage was done to extent of several millions of marks.

W. H. Robinson, aviator, and two men passengers were burgled to death at Los Angeles when the airplane in which they were flying caught fire and fell.

The skeleton of John Collins, a Belgian farm hand, who disappeared under mysterious circumstances from a High Bluff farm last January, was found on the outskirts of Winnipeg.

Lady Wilson, widow of Field Marshal Sir Henry Wilson, declined the invitation extended to her by the Unionist candidate for Parliament for North Down, her husband's late constituency.

The Swiss Government, it was announced has decided to adhere to the St. Germain convention for international control of traffic in arms and ammunition. The decision is subject to approval by the Swiss Parliament.

Shortage of foods has grown acute in Bulgaria. The shops are charging exorbitant prices for eggs, bacon and bread. No taxicabs and only a few taxicabs are available and the drivers demand extra payment for the risk they run, allowing no discount, however, for the risk the passenger takes. The newsboys ask double price for papers.

A new town of about 1,200 population will be established between Pils and Waldo, B.C., in the Crown's Nest Pass country. If plans of a syndicate of Chicago entrepreneurs for establishment of a pulp mill on the Elk River materialize, according to C. D. MacNab, of Waldo. An expenditure of about \$1,500,000 is involved.

Warships designed for China were a part of the Behring Sea cargo from the steamer Victoria, the first boat down from the Arctic this summer. They were collected by traders from Eskimo hunters. They are exceedingly stiff and quiltlike. In China, they are used as tombs, some being mounded with gold or silver.

The Royal Mail liner Orbita was successfully navigated through a narrow channel leading to Portland Harbor by electrical signals from the Admiralty's submarine cable laid 20 miles out to sea, with the object of lessening the fog peril near the harbor. The Orbita up to the present time is the only ship on which the necessary equipment has been installed.

When a fellow needs a friend—

EVER wake up in the morning feeling fagged and foggy?

Tired muscles and weary brains call for a breakfast of Grape-Nuts, the easily digested food, to fortify against exhaustion.

Grape-Nuts repairs the daily wear and tear on body tissue. It provides the essentials for rebuilding body and nerve cells; lime for the teeth and bones; iron for the blood.

Make this crisp and toothsome cereal a regular part of your daily diet. Made from wheat and malted barley, and partially pre-digested by 20-hours' scientific baking, Grape-Nuts—satisfying cream or milk is the necessary digestion, without overtaxing the digestion.

Sold by grocers everywhere!

"There's a Reason"

Hard Water Softened by Pearl
Hard water can be softened by merely pouring it through a bed of raw peat, the softening being caused by the formation of insoluble calcium and magnesium salts by reaction with acids that are normal constituents of the peat, and all the hardness is taken out of the water in passing through it. It is thought that if this process could be profitably adopted, the result would be quite an achievement.

Winnipeg, Dec. 10.
O. McPherson, Deputy Under-Secretary of the Interior, B.C., Vancouver, B.C.,

Minister of the Interior, B.C., Vancouver, B.C.,
Dear Sir:—The report of Inspector McPherson, dated Dec. 10, 1914, in relation to the case of the late Mrs. W. E. McPherson, is received. The report is being forwarded to the proper authorities for their consideration.

Berlin for Car Windows
In a new type of street car a heavy wire screen is attached to the bottom of each window so that the window is raised it lifts the screen to cover the opening.

Your Home Medicine Chest
Among the standard household remedies that should always be on hand in your home medicine chest, none is more important than Thomas' Electric Oil. Its manifold usefulness in relieving pain and healing lesions is known by many thousands throughout the land. Always use Dr. Thomas' Electric Oil for relieving rheumatic and sciatic pains, treating ear, throat and chest, coughs, burns, scalds, cuts, bruises and sprains.

Bells and Their Tone
Makes New Bells Sound as Good as Old Ones
The quality of tone in many old European bells could be accounted for only by their age. After careful investigation an ingenious bell maker determined that with a century of use the bell clapper and the inner surface of the bell become so worn that they fitted exactly and a considerable surface of each came in contact. "Now," he said, "I can cast a bell and a clapper in a form that gave them a considerable contact surface to begin with. The result was all that he had hoped. A month of lively ringing is still needed to give any given bell the tone of the desired quality, but the economy in time is obvious.

Corn cannot exist until Holloway's Corn Remedy is applied to them, because it goes to the root and kills the growth.

Blind Man's Invention
An auxiliary device has been invented by a blind man, a weighted strip of flexible material falling into place as pages are turned.

Among the head-hunting tribes of Borneo custom forbade a widow to remarry until eight months after the death of her wife.

812 Becomes \$30,000,000
The latest advertisement of any staple product in the world is a Chicago chewing gum manufacturer who started with a capital of \$12 and now has a business with an annual turnover of more than \$30,000,000.

GROWING BOYS AND GIRLS
Used Rich, Red Blood to Keep Up Health and Strength
It is a mistake to think that anemic blood is only a girls complaint. Girls probably show the effect of weak, heavy blood more than boys. But many boys in their teens grow thin and weary, showing that they have not enough blood, or that it is thin and watery. Let the boy in this condition eat Dr. Williams' Pink Pills. He will find his strength and his health becoming complete. To vigorous life he will give both his weak boys and girls Dr. Williams' Pink Pills and see how soon good appetite returns and how weak boy or lankish girl becomes full of activity and high spirits.

Arabs Forbidden to Portray Anything That Has Life
The relation of the Arab forbids him to make a picture of any living thing, and he had a somewhat startling effect.

Dangerous Cargoes

Salvors Dislike to Sail With a Cargo of Sugar or Coffee

At first thought it would seem that dynamite was a cargo to be carefully avoided, but from a sailor's point of view there are no more dangerous cargoes. The dread, for instance, a cargo of sugar! Not hundreds of tons of cane sugar in casks in the hold of a vessel and let the ship steam for a week or two in bad weather. The odor is sickening. The sailors cannot get the sweet taste out of their mouths and crave vinegar or lime juice—anything except sugar. They lose their appetites and are always glad when a voyage on which the cargo was sugar is over. Coffee is at all agreeable as sugar, in addition being very dangerous.

Cotton is a really dangerous cargo. If a little of it happens to touch a cotton reel it is sufficient to start a fire. A single bale of cotton material with such an oil as kerosene, the seed and lying at the bottom of a hold can be compared only to a slow match attached to a powder keg.

Acids and other chemicals form dangerous cargoes. Carbons of calcium, for example. Arsenic gas is made from this chemical and the gas is constantly given off if the product is exposed to air.

Shipowners dislike to carry drums of acid where they can be reached easily. A Chilean ship recently put in at the British Isles looking for badly. Her cargo was made up of drums of acid and chalk. The acid had leaked from the drums and mixed with the chalk, forming a carbide acid gas in the hold. This gas is deadly and the crew could not get out. The ship was taken to a harbor and the crew gathered in the bottom of the ship and had eaten away the iron frames there.

BEECHAM'S Sweeten the Stomach PILLS

Dublin's Fine Buildings Destroyed

Post Office Ranked With Four Courts As Beauty Spot

Dublin is the subject of so many tales of fighting and destruction that its natural beauty in architecture and environs is apt to be overlooked. The loss of the city sustains by the recurring strife is one of the sorrowful features of the whole trouble. The post office, which was destroyed in the Easter rebellion of 1916, ranked with the Four Courts, now the scene of siege and battle, as a beauty spot of the city's boundaries. The Four Courts was erected here in the thirteenth century, and with its stately dome and columns has been one of the city's architectural gems. With in four facades was a quadrangle in which important assemblies were held.

Shakespeare said in his "Irish Sketch Book" that it was curious how some of the streets of Dublin so suddenly ended in potato fields, but that was long ago, and London, where the city has existed for centuries, has been made a part of the city's history. The city has been made a part of the city's history.

Woman Founded Successful Firm

Business Started in 1870 Now Has 100 Branches

One of the romances of business in London was ended by the burial at Putney Vale Cemetery of Mrs. Greig, the founder of the famous provision firm of David Greig.

Mrs. Greig, who was 85, left her native town, Montreal, in Scotland, in 1870, and came to London to seek her fortune. She opened a small provision shop in High Street, Hammersmith, and the business flourished so well that it was not long before branches were opened.

David Greig, who had assisted his mother, went to Britain in 1899 and started a branch. That branch became the headquarters of the firm, which has now 100 stores in all parts of London, and is one of the largest and most reputable trading concerns in its kind of business in the south of England.

Mrs. Greig continued to direct the business up to 30 years ago, when she retired. She, however, took great interest in her firm's affairs up to the time of her death.

Her remarkable energy and capability became almost proverbial in the provision trade, and she furnished one of the most notable examples of woman's success in business in London.

An Engaging Chinese Figure
General Wu is Greig's Political Wife

General Wu is the most engaging figure that has appeared in Chinese politics for a long time. He has none of the conceit and cunning that mark Sun Yat-sen's character, and seems to be free from the chicanery and insincerity of that baneful rascal in the world, Chang Tso-Lin. He expresses himself well and patriotically. He does not, he says, desire power, but the opportunity to unify China, abolish militarism, revive industry and gain the respect of the world. Of course Mrs. Greig, who is so modest as they would like to seem have used such language before, but Wu adds to the impression that he is an honest, usable fellow, who has not his share of brains.

Manitoba Butter Wins
Awarded Prize at Exhibitions in Calgary and Edmonton
For years butter made at Manitoba creameries has won an enviable place at the leading Canadian exhibitions. Word has been received by the Department of Agriculture of the awards won at Calgary and Edmonton by an exhibit placed by the Brandon branch of the Crescent Creamery Company.

Indians Unearth Antiques
Indians on Christian Island stirred by the recent search for Jesuit treasure in the River Wyke have been busy digging around the ruins of Fort St. Marie, and have recovered several monuments of the French mission to Ontario centuries ago. These include the inscribed cornerstone which was buried by the Jesuits from their first post on the mainland when they came to abandon it under the attack of the Iroquois.

1,500 Telephone Directories
About 1,500 different telephone directories, with an aggregate circulation of 25,000,000 copies a year, are issued by the principal telephone systems in the United States. To print and distribute the directories costs the corporation approximately \$5,000,000 a year.

Fountain Paint Brush
An Italian man is the inventor of a fountain paint brush that combines the accuracy of a hand brush with the speed of a spray device.

Opera performed in Berlin
transmitted by wireless telephone was distinctly heard 800 miles away.

About one-half of our globe, it is estimated, consists of iron.

SENDS TANLAC TO RELATIVES IN HOLLAND

North Vancouver Woman Says She Wishes Everybody in The World Could Have The Medicine—Restored Her To Splendid Health.

"I think so much of Tanlac I am sending it to my relatives in Holland for I want them to know what a wonderful medicine we have over here," said Mrs. C. Spruiell, 15th St., E., North Vancouver, B.C.

"I suffered from stomach trouble and other ailments so long it was almost a nervous and physical wreck. After meals my food soured and I often bloated until I could scarcely breathe. My nerves got so much so that I had dizzy, fainting spells so often it was afraid to risk myself alone."

"My first bottle of Tanlac helped me so much I kept on taking it until now I feel like a different person. My stomach never gives me the least trouble, my nerves are normal and I sleep like a child every night. I wish everybody in the world could have Tanlac. I cannot praise it too much."

Tanlac is sold by all good druggists.

British Railway Novelties

New Electrical Locomotive featured in For Passengers' Train

One of the leading British railway companies has recently completed its first electric locomotive for main line traction. This locomotive is capable of hauling a full size train at a speed of 45 miles per hour; and at its recent test it consequently fulfilled the exacting specifications which had been placed before its designers. All the electrical and other equipment for this locomotive was designed and manufactured in Great Britain. The same railway company has been conducting an interesting series of experiments with the object of improving services on certain branches of the line where the running of long trains is not justified by the volume of traffic. On such routes railways closely similar to the ordinary motor-carbon have been placed, the wheels being flanged as required for running on rails. After the results of the experiment have been obtained the company will probably construct special omnibus vehicles with a view to giving a frequent service on lines of low traffic capacity.

Minard's Liniment Relieves Neuralgia

The world's record for Sunday School attendance is probably that of Owen Jones, of Liverpool, England, who has been a regular attendant for more than 94 years.

The pendulum was first applied as a regulator to a clock in 1656.

Had Your Iron Today?

SUN-MAID STEELLESS RAISINS

5¢

Work Brains—Not Digestion

HERE'S an ideal hot-weather luncheon!

The packages luscious Little Sun-Maid Raisins are cool glass of milk. Big men don't need more.

290 calories of energizing nutriment in the little raisins. Pure fruit sugar, practically predigested so it acts almost immediately, yet doesn't tax digestion and thus heat the blood.

Then's fatigue-resisting food-iron also in this luncheon.

Vital men eat like this and resist the weather. Don't work their digestion because they want to work their brains.

Try it for a few days and you'll feel better.
